- Event Flyers
- Social Media Content
- Brand Identity

Interests

- Bags, hats, The Hellp, food, Roberto Bolano, making physical objects, cooking, VCVRack, organising

Music

My work related to music mostly involves creating promotional flyers on a freelance basis and doing creative direction for artists for extended periods of time. I have a strong personal connection to it and have grown up wanting to be involved in its presentation or production in some way.

Unknown Pleasures, 2025

This set of lineup flyers was for an event led by the artist Mumbai Underground and organized by CTRL.

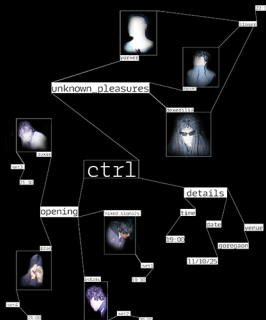

Unknown Pleasures

Yorker Ayaan Dexedilia

Ruxie Prag

Mixed Signals DJ Istaru

11th october ctrl station saturday

The type of music they make is abstract and hard to pin down, which resulted in me making a few different versions. Each version attempts to capture a different aspect of their sound.

The words that come closest to describing their music is futuristic, disconnected and malformed, all of which I have tried to express in some way in each of the flyers.

Mixed Signals

Darzi, 2025

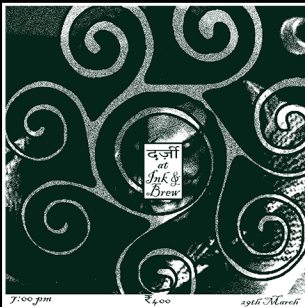

These flyers were designed to be posted on Instagram as promotional material for an acoustic show by the artist Darzi. He makes electronic music infused with and inspired by traditionally Indian sounds.

I did not want for any of them to look as if they are an attempt at creating something vintage, when it is infact something new.

My main goal with this series of flyers was to capture the feeling of the posters that m]ay have been used by one of Darzi's influences, without it feeling like an imitation of it.

Ejthakid, 2022

My work with the artist Ejthakid included creating various album covers for a string of songs and a mixtape.

ASTRAL

EJTHAKID?!KYCE????!!!!!!HERE?!WHERE????!!!!

I used grungy textures to invoke the feeling of vintage punk flyers, in juxtaposition to the vibrant sound of the music to create some visual contrast. EJ was also quite interested in this specific style and wanted consistency, but not sameness across his covers.

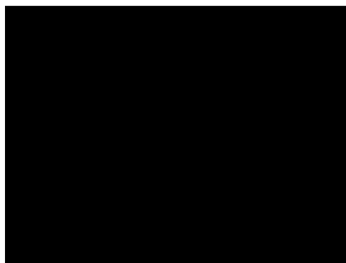

Being one of my first commissioned projects, it helped me gain a footing in the design style I followed through on and developed in my personal creative exploration and commissioned projects after that.

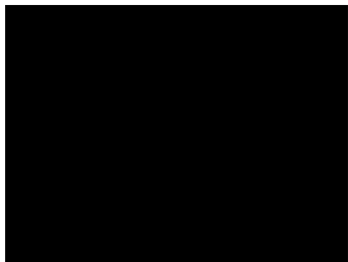

Ruxie, 2024

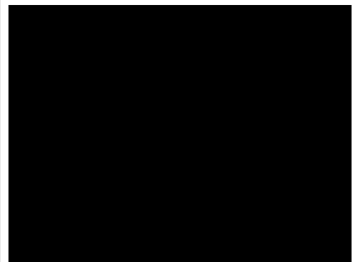

This is a series of short videos created as promotional content for an EP release by Ruxie, an artist from Mumbai. Every video serves as a mini visualizer for a song on the project.

It was also partially shot by me, and partially by a friend of mine on Versova beach, a place closely linked to the artist and the creation of this EP in particular.

The tone for the videos draws from the same themes as the EP and the specific song each video is for, utilizing blurry, low - resolution imagery to visualize the distorted sound and production on the project.

Social Media

In social media, I have done a variety of work and have gained a good understanding of how to work within pre-existing frameworks. It has taught me a lot about consistency, punctuality and coordination.

Ink & Brew, 2025

This is a set of slides that I created for an event at Ink & Brew, a cafe in Mumbai. The tone of the post is meant to be inviting and casual, while conveying the needed information.

Events on the 31st at Ink & Brew

What's spinning?

New Year's at Ink & Brew

Live musical Acts,
Art pop-ups,
Film screenings,
Vinyl Listening
sessions & more!

31 December

4pm - 2026 =>

Who's playing?

an acoustic-driven session, new to the scene. The two artists write, perform, sing, and produce together to create a sound influenced by strings, brass, jazz, rock and more. This sound can be described as warm, often playful, and full of new expression.

And to end the night
and welcome the new
year, we will open
our doors to

I chose mixed media to reflect the DIY and homely nature of the event itself, which was focused on the community that has formed at this cafe since its opening and helped it flourish and grow. The colours were chosen specifically to match with the cafe's colour scheme helping it fit in on their page.

Commissioned Content

This set of videos are ones that I have been commissioned to edit on a freelance basis for usage on Social Media.

Thank You.
